Elementary & Secondary Programs:

Students had a great time participating in the Fall Festival and Spirit week activities.

Elementary Programs:

Mrs. Johnstone's Class is learning about the Scientific Process and combed it with a little World History and Halloween. Students studied mummies and ancient Egypt's mummy-making skills. Then, they used the Scientific Process to see which substances best dried out their "Mummy Apples." The class made ghosts out of balloons, cheesecloth, and modge podge as a Friday reward.

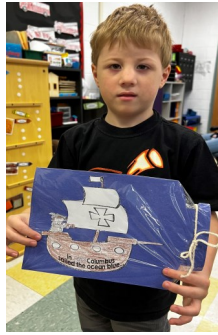

Elementary Programs:

The Liberty and White Sulphur Springs Fire Departments spent the morning with students from the Elementary Program during Fire Prevention Week. The kids learned what to do and expect if they were ever in a fire.

Elementary Programs:

Mrs. Peters' class had a busy month learning about Columbus' Day, Fire Prevention, experimenting with pumpkins, and learning about height, weight, and what's inside a pumpkin.

Mrs. Peters class also created Gretchen the Scarecrow, who pretended to read to the class.

News from the Career & Tech Center

Career & Tech Expo: Over 900, 5th & 8th-grade students from around the county visited the Career & Tech Center to explore what is available to them when they enter 11th grade.

Public Safety Services: Students participated in the clothesline project to raise awareness of victims of domestic violence. The students also decorated t-shirts with slogans that advocate for victims of domestic violence that will be hung at SUNY college throughout October.
